Please know that dates and road miles are subject to change and can be rescheduled anytime. Bannock County Road & Bridge asks that the public be aware of temporary road delays while crews are out working. The public is also encouraged to use alternate routes if and when possible. Paying attention to warning signs, lights, and flagger instructions can help the road crews complete work in a safe and timely manner.

If you have questions or concerns, please call the Public Works Office at 208-233-9591 Monday through Thursday from 6 a.m. to 4:30 p.m., email [roads@bannockcounty.gov](mailto:roads@bannockcounty.gov), or go to [bannockcounty.us/public-works/](http://bannockcounty.us/public-works/) and submit questions or feedback.

Thank you for helping keep our Road & Bridge crews safe this summer!
