Project Information

Current Use of Property

Ag, sheep grazing

Surrounding Land Use

BLM 3 sides, co applying with neighbor bordering the west section line.

Parcels Proposed for Map Change

Parcel Number RPR4225000600	Township T9S
Proposed Designation Residential Rural	Section S5
Property Owner Richard and Raida Jensen Family Trust	Current Designation Agricultural
Acres 120	Range R37E
I have authorization to include the parcel(s) above for the map change. false	

Parcel Number RPR4225000404	Property Owner Marian Mathewson
Acres 40	Proposed Designation Residential Rural
Current Designation Agricultural	Section S5
I have authorization to include the parcel(s) above for the map change. false	Range R37E
	Township T9S

Parcel Number RPR4225000402	Section S5
---------------------------------------	----------------------

Township	Acres
T9S	40
Property Owner	Proposed Designation
Marian Mathewson	Residential Rural
I have authorization to include the parcel(s) above for the map change.	Range
false	R37E
	Current Designation
	Agricultural

Narrative Standards

Please address how the proposed Future Land Use Map re-designation meets the following requirements:

A. The existing Comprehensive Plan and/or any related element thereof is in need of the proposed amendment.

All the neighboring private property is already zoned rural/residential. The remaining neighboring property is BLM. Perhaps the Comprehensive Plan is not in need of the change, but we see no harm in making the changes based on the already predominantly rural/residential zoning of our neighbors.

B. The proposed amendment is compatible with the surrounding are, and the goals and policies of the Comprehensive Plan.

The neighboring private property is currently zoned rural/residential. The addition of 200 additional acres wouldn't materially change the Comprehensive Plan since these acres are located at the end of the private property that intersects with BLM and US Forest land.

. We have six children and would like to make this 120 acres available to them. None of them have expressed an interest in building at this time.

Our children they have been a vital part of the operation of our farm and appreciate the quiet and solitude it affords. Our total farm acres is 440 acres.

Marian is wanting to change her zoning to reflect the zoning predominant to the surrounding acreage. This application being approved would connect us through her to the remaining rural/residential property predominant in the canyon.

We support the goals and encourage the goals of the Comprehensive Plan.

C. The proposed amendment will have no major impacts on transportation, services and facilities.

Harkness Canyon Road is a county maintained road which will not require any further maintenance beyond what is now provided. No other further services or facilities are imagined with this application.

D. The proposed amendment will have minimal effect on service provision, including adequacy or availability of facilities and services and is compatible with existing and planned service provision.

We are not needing any further county facilities or services with the change is the zoning ordinance.

E. Strict adherence to the Comprehensive Plan would result in a situation neither intended nor in keeping with other key elements and policies of the Plan.

We currently lease the land along with our BLM/Forest sheep permit. Our intent is to continue this practice. We want the property and surrounding area to remain agriculture.

Again, we agree with and support the Comprehensive Plan.

F. The proposed Plan amendment will promote the public welfare and will be consistent with the goals and polices of the Comprehensive Plan and the elements thereof.

Re-zoning the property will be consistent with the already rural/residential property uses. This private property is already surrounded by rural/residential zoned property. The neighbors all use their property for grazing or in the case of Wagner Ranches for cultivation agriculture. Our existing neighboring property is in the SAFE/CRP program, which is dedicated to re-establishing the Sharp Tailed Grouse.

Timeline

Future Land Use Map Change Application Payment

Status: Paid July 22nd 2020, 8:17 am

Richard jensen July 20th 2020, 6:50:45 pm

This amount is needed to complete the application? Is this \$945 in addition to the other payment?

Tristan Bourquin July 21st 2020, 7:57:58 am

Richard,

Yes, the \$945 is needed in order to complete the application. The rezone and future land use map change both have the \$945 fee.

Thank you,

Tristan
